OAKAJEE PORT AND RAIL PRECINCT
PRE-FEASIBILITY STUDY SUPPORT

The Client

Oakajee Port and Rail

The Project

Oakajee Port and Rail (OPR) planned a greenfields infrastructure and supply chain business to transport iron ore from Western Australia's mid-west to customers across the globe

The OPR Project included:

- Over 700km of new rail to a new handling facility
- The construction of a port to load Cape size vessels
- Construction of a major breakwater and loading facilities to 70mtpa

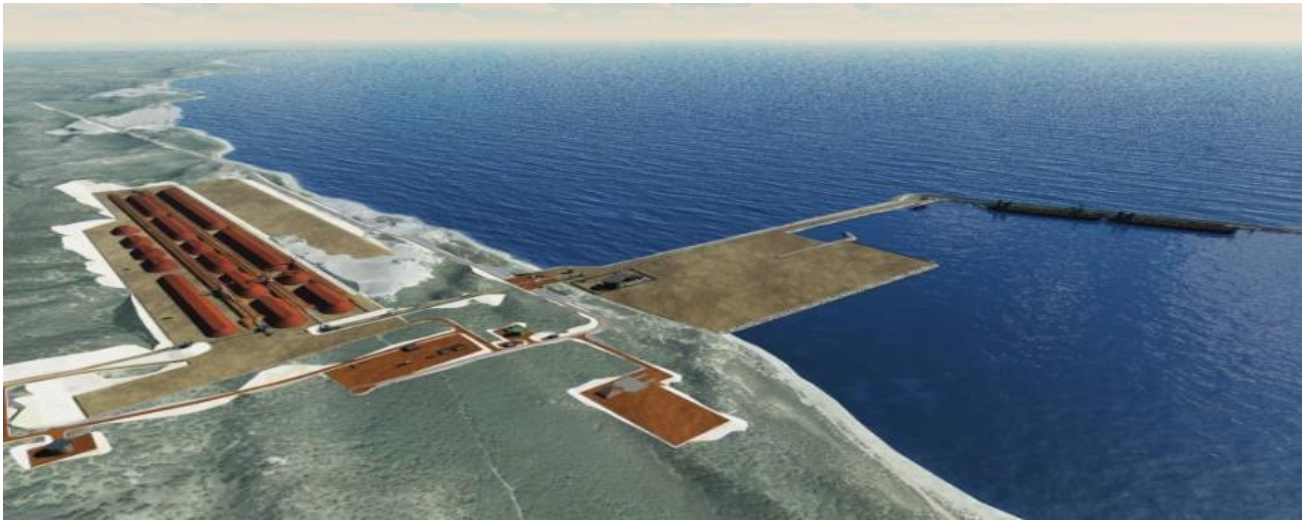

The Assignment

Flagstaff provided engineering and management input to manage option evaluation for this major rail and port project in Western Australia.

The Outcome

Flagstaff delivered:

- Options analysis and reporting
- Documentation, analysis, interviewing and assistance in the selection of an EPCM company to manage the subsequent feasibility study
- Inputs for financial analysis
- Management of construction scheduling
- Management of engineering estimating
